## **Details of Addons in Platinum Package**

### **1. VENDOR PRODUCT ADDON [M2]**

Vendor Product Addon enables the vendors to create Configurable, Bundle, and Grouped products and provides custom options to simple, virtual, and downloadable products.

- Default Inventory Settings such as Maximum Quantity allowed in a shopping cart, the backorders feature, and Quantity increments.
- Default Magento 2 Pricing such as tier prices, group prices, and special prices.

- Simultaneous Mass Image Upload.

## **2. VENDOR ORDER ADDON [M2]**

Vendor Order Addon for Magento 2 enables your vendors to manage their orders completely starting from the invoice till the shipment. It also enables them to generate a credit memo in case of any refund. This enables the store owner to manage the transactions on an item basis in a more naturalistic way.

- The Invoice creation process becomes easy as the vendors can now

generate the invoice of their orders themselves without reaching the admin, every time the order is placed.

- Whenever a new order is placed or any order is canceled then the vendor receives a notification email. These emails are sent on behalf of admin.

### **3. VENDOR PRODUCT ATTRIBUTE ADDON [M2]**

Add custom attributes to your products for entering some extra or important information as per your requirement.

- Custom Product Attributes: for creating additional fields in the product for entering more information.
- List of Product Attributes: for displaying all the created product attributes at a single place.
- Edit/Delete the Attributes: for modifying the already created attributes as per the need.

#### **4. VENDOR PRODUCT ASSIGNMENT ADDON [M2]**

Allows the admin to assign the already created products to the vendor just by following an easy process.

- Assign Products: to the vendors which have been already created from the admin panel.
- Remove Products: from the vendors if not needed or assign them to other vendors.
- Easy Process: is followed in product assignment to ensure smooth functioning.

#### **5. VENDOR COMMISSION ADDON [M2]**

Allows the admin to set miscellaneous commission rates for every purchase of his vendor's products.

- Product Type wise: for adding commission based on the product

types.

- Category wise: for adding commission rates on the available categories.
- Min/Max rule: for deciding the rate which has to be applied as commission.
- Vendor wise rates: for defining the commission rates of specific vendors.

## **6. VENDOR REVIEW AND RATING ADDON [M2]**

Customers can rate the vendors for their services and can also view the reviews given by other customers.

- Rate the Vendors: for their performance, quality and provide reviews to them.
- Modify Reviews: for creating new reviews, editing any information and deleting them if needed.
- Approve Reviews: before displaying them on the frontend only when they seem to be genuine.
